A Police Board That Needs Giasses.

The police board will meet to-night and, in addition to making a few appointments, will probe into the record of Russell Burdett, appointed a patrolman at last Monday night's mosting. It is understood that Al Baker, the gambler and policy man, will be summoned as an expert witness, with the view of exonerating Burdett. At the time Officer Burdett was arrested for running a policy game, it was generally believed that he was in the employ of Baker. Now it is proposed to place Baker on the stand to prove that Burdett never wrote policy for him. It is not likely that Baker will for riminate himself by admitting that Burdett was in his employ as a policy that Baker will for has caused some to believe that the commissioners were in earnest when they made public their intentions of appointing none but good men. BUREAU OF LABOR REPORT

NUMBERS AND WAGES OF MALE AND FEMALE EMPLOYES COMPARED.

Proportion of Women Who Work Is Increasing, While Proportion of Men Who Work Is Decreasing-Why Women Are Preferred.

Washington, Feb. 12.-The eleventh anqual report of the bureau of labor, just transmitted to congress by Commissioner Wright, was prepared in obedience to a joint resolution of congress directing an investigation relative to the employment of men, women and children, and is confined strictly to a comparison of the ex-tent of employment and wages of 1855-96, or "present period" with the conditions in what is termed "former period" unteduting the present period by at least ten

The agents of the department secured information from 1,957 establishments of various kinds, located in thirty different states and employing 148,367 persons-a number large enough to insure that the data collected were thoroughly representa tive. The complete data sought for, how were obtained from 331 establish ments employing 64,500 persons in the former and 108,648 in the present period. Of this number in the first period 26,749 were males of 18 years of age or over, as against 43.195 in the second, 4,175 males under 18 years of age, as against 7,540 in the sec ond, 27,162 females, 28 years of age or over and 6,743 females under 18 years of age as against 45,182 and 12,571, respectively, in the present period. The male employes 13 years of age or over increased in the pres ent period over the former period 53.1 per cent, while female employes of the same should they succeed in segregating from the metropolis the Heim company shall be given a monopoly on the beer traffic. Weight is given this rumor from the tact that Tim Lyons, one of the veteran joint-ists of the South side, has been in Topeka ever since the secession bill was first in-troduced in the senate, lobbying for its passage. Lyons is an intimate friend of the Heims.

ent period over the former period \$5.1 per cent, while female employes of the same age period increased \$6.3 per cent. Male employes under 18 years of age increased \$9.5 per cent, while female employes under 18 years of age increased \$9.5 per cent, while female employes under 18 years of age increased \$9.1 per cent.

The proportion of females 19 years of age and over employed in all occupations in the United States rose in its relation to the whole number employed from 14.85 per cent in 1870 to 17.22 per cent in 1889, while males decreased in proportion from \$5.22 per cent in 1870 to \$2.78 per cent in 1889. For the present period, out of an aggregate of 79.87 women, 79.321, of 88.7 per cent were single, 6.755, of 8.5 per cent married, 2,411 or 2.5 per cent divorced and 24 or 3-10 of 1 per cent unknown. Of the 3,914,571 females 19 years of age or over engaged in gainful pursuits in the United States in 1890, 69.84 per cent were single or their conjugal condition unknown, 13-16 per cent married, 16.19 per cent widowed and 9 per cent divorced. Of 782 instances in which men and women work at the same occupation and perform their work with the same degree of efficiency, men receive 50.1 per cent greater pay in 129 or 16.9 per cent, the men receive 50.1 per cent greater pay than the women in the 595 instances in which they are given greater pay, while the women receive but 10.3 per cent greater pay in the 129 instances in which they are given greater pay, while the women receive but 10.3 per cent greater pay in the 129 instances in which they are paid higher wages.

The main reason given for the employment of women and girls is that they are better adapted for the work at which they are employed. Other reasons given are that they are reasons given are that they are more reliable, more easily controlled, cheaper, more temperate, more easily procurable, neater, more rapid, more industrious, less liable to strike and earn more rapidly. On the other hand, th reasons for their opinion, given by these who did not believe that there was any tendency for the employment of women to tendency for the employment of women to increase their industries, were that very often women who were better adapted and cheaper were unreliable; that their physi-cal strength was inadequate for heavy work; that machinery was gradually dis-

work; that machinery was grammly oisplacing them.

Tables give the dates when women were first employed in each establishment and the occupations at which they were employed, the hours of labor, a list of occupations followed by women and girls and the wages in detail of men, women and children in all of the establishments.

the bill carries as an amendment the provision for the allotment of lands in Indian Territory and for displacing the local Inreiritory and for displacing the local Indian courts by a system of federal judiciary. A provision is also inserted in regard to the support of Indian schools, giving the secretary authority to make contracts with contract schools, apportioning the amount paid thus among the various religious denominations, but these contracts are to be made only where non-sectarian schools cannot be procured. The provision is the same as that of the present law, except that the percentage is reduced from 50 to 40 per cent. Among other amendments in the legislative features of the bill are the following: Giving competent Indians the preference in the employment of farmers at Indian agencies; striking out the provision allowing the Quapaw Indians to lease their land in Indian Territory; requiring the commissioner of Indian affairs to employ Indian girls as assistant matrons and Indian boys as assistant farmers wherever practicable: authorizing disabled Indians to lease the lands allotted to them; providing for a commissioner to superintend the sale of Indian lands; conferring jurisdiction upon the court of claims in the Cherokee old settlers claims. As reported, the bill shows an increase of £47.839 over the amount appropriated by the house bill, making a total of \$7.300.496. The principal Item of this increase is \$141.500 for the resurvey of the lands of the Chickasaw nation. Forty thousand dollars 00 for the resurvey of the lands of the blekasaw nation. Forty thousand dollars s provided for irrigation in Indian reserva-ions, instead of \$30,000, as in the house bill.

The Knabe Piano-

Its Tone and Touch

The TONE of the NEW Knabe plane is unique. It combines th greatest possible volume and richness with a rare, sweet, singing and sympathetic musical quality that is found, certainly to the same extent, only in these instruments. The scale is of delightful evenness throughout, the bass is deep and resonant, the middle register firm and musical, while the upper notes have a pearly brilliancy which in itself distinguishes them from other instruments.

In TOUCH, these instruments are distinguished by their capacity to permit the widest range of effects, from the strongest fortissimo to the most tender planissimo, and give the performer, without effort, the opportunity to produce all those varying shades of expres sion so dear to the artist and musician and so necessary to the perfeet expression of the works of great masters We are now sole agents for the NEW Knabe piano.
